# Fidelity® VIP Value Strategies Portfolio — Service Class

## Investment Strategy from investment's prospectus

The investment seeks capital appreciation. The fund normally invests primarily in common stocks. It invests in securities of companies that the adviser believes are undervalued in the marketplace in relation to factors such as assets, sales, earnings, or growth potential (stocks of these companies are often called "value" stocks). The fund focuses investments in medium-sized companies, but also may invest substantially in larger or smaller companies.

## Category Description: Mid-Cap Value

Some mid-cap value funds focus on medium-size companies while others land here because they own a mix of small-, mid-, and large-cap stocks. All look for stocks that are less expensive or growing more slowly than the market. Many of their holdings come from financial, energy and manufacturing sectors.

## Volatility Analysis

Investment

In the past, this investment has shown a wide range of price fluctuations relative to other investments. This investment may experience significant price increases in favorable markets or undergo large price declines in adverse markets. Some of this risk may be offset by owning other investments that follow different investment strategies.
