Janus Henderson VIT Enterprise Portfolio: Institutional Shares

Investment Strategy from investment's prospectus

The investment seeks long-term growth of capital. The Portfolio pursues its investment objective by investing primarily in common stocks selected for their growth potential, and normally invests at least 50% of its equity assets in medium-sized companies. Medium-sized companies are those whose market capitalization falls within the range of companies in the Russell Midcap Growth Index. Market capitalization is a commonly used measure of the size and value of a company. It may also invest in foreign securities, which may include investments in emerging markets.

Past name: Janus Henderson Enterprise Instl.

Category Description: Mid-Cap Growth

Some mid-cap growth funds invest in stocks of all sizes, thus leading to a mid-cap profile, but others focus on midsize companies. Mid-cap growth funds target firms that are projected to grow faster than other mid-cap stocks, therefore commanding relatively higher prices. Many of these stocks are found in the volatile technology, health-care and service sectors.
