NVIT BlueprintSM Conservative Fund — Class II

Investment Strategy from investment's prospectus

The investment seeks a high level of total return consistent with a conservative level of risk as compared to other BlueprintSM Funds. The fund is a "fund of funds" that invests primarily in affiliated mutual funds representing a variety of asset classes. It aims to provide diversification across traditional asset classes—U.S. stocks, international stocks, and bonds—by investing primarily in mutual funds offered by Nationwide Variable Insurance Trust and affiliated or unaffiliated exchange-traded funds. The fund allocates approximately 80% of its net assets in bonds, and approximately 20% in U.S. and international stocks.

Past name: NVIT Cardinal Conservative II.

Category Description: Allocation—15% to 30% Equity

Funds in allocation categories seek to provide both income and capital appreciation by investing in multiple asset classes, including stocks, bonds, and cash. These portfolios are dominated by domestic holdings and have equity exposures between 15% and 30%.

Volatility Analysis

In the past, this investment has shown a relatively small range of fluctuations relative to other investments. Based on this measure, currently more than two thirds of all investments have shown higher levels of risk. Consequently, this investment may appeal to investors looking for a conservative investment strategy.
