# Morgan Stanley VIF Global Infrastructure Portfolio — Class II

## Investment Strategy from investment's prospectus

The investment seeks both capital appreciation and current income. The fund normally invests at least 80% of its assets in equity securities issued by companies located throughout the world that are engaged in the infrastructure business. It may invest up to 100% of its net assets in foreign securities, which may include emerging market securities. Under normal market conditions, the fund invests at least 40% of its assets in the securities of issuers located outside of the United States. It is non-diversified.

Past name: Morgan Stanley UIF Global Infrast II.

## Category Description: Infrastructure

Infrastructure equity funds invest more than 60% of their assets in stocks of companies engaged in infrastructure activities. Industries considered to be part of the infrastructure sector include: oil & gas midstream; waste management; airports; integrated shipping; railroads; shipping & ports; trucking; engineering & construction; infrastructure operations; and the utilities sector.
